GS1 Labeling Compliance made easy....

GS1 Handy is a cutting-edge GS1 compliant label printing data terminal to print and archive logistic and trade item units within a supply chain with ease and simplicity. Such labels make it possible to track and trace items within the supply chain (traceability).

FEATURES

- **Barcode Printing** - easy and quick printing of correct barcodes for logistic units that comply with GS1 labelling standards (e.g. SSCC – Serial Shipping Container Code, GTIN, GLN, AI). It is possible to enter the data needed for generating a label along with secondary information like batch/lot number, weight, count etc Barcode, carrying the above mentioned details, with their application identifiers, will be present on a label on Shipper pack using GS1 – 128 symbologies.
- **Logistic Units / Product Database** - exchanging and archiving data on logistic platform ensures that all the unit information (GTIN, Product Description, Code, Packaging etc) is correct and enhances safety of movement of goods and Supply Chain Management.
- **Wireless Integration Module** - is a solution integrated with GS1 Handy that supports full integration with GSM/GPRS platform to facilitate real time data exchange and validation with backend database systems running on ORACLE, SAP, SQLServer or any other contemporary database platform. This module enables you to post transactions / manifest of every logistic unit to its central databases running on SQLServer, ORACLE or dump transactions on any ftp server.
- **Weighing Scale Interface** - provides standalone integration for in-line weighing and piece count data to be incorporated as secondary information on the logistic unit.

BARCODING SYMBOLOGIES

LOGISTIC UNIT LABEL

SMART PHARMA	
Tetrazine-p 200mg	
1 x 6 units X 24packs	
GTIN 7012345000013	Product Code 500001
EXP 31.12.2007	Batch no. 12345XF
Packing Carton	Weight 12.5kg
SSCC code (00)37012345000001004
